The graph shows the percentage difference from MOD (b) and ozone (DU) levels over the years from 2012 to 2018.

(a) The percentage difference from MOD shows a slight increase overall, with a peak of +0.99% and a dip to -0.15%.

(b) The ozone levels fluctuate significantly, with the MOD data appearing to track closely with Mapper version 1 and 2, though Mapper version 2 shows a slight increase over the years.
